

FCC,

-

I do not wish to see Indiana's telephone privacy law modified or changed to accommodate the business community in which I choose to do business with. I signed up and choose not to have my privacy interrupted by unnecessary and unwanted communication from anyone I do business with. A single or multiple transaction with a business entity does not entitle that entity to continue to pursue additional opportunities with me.

-

So with the above noted; please choose to accept my formal complianent by any "Established Business Relationship" that they have the right to continue pursuing me beyond transaction choosen by myself.

-

Regards,

J.C.
